ANNEXURE-E
MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management discussion and analysis report provide an over view of the financial activities for the fiscal year ended on 31st March 2023, gives an overall sight of the spinning industry, opportunities and threats in the business and Company's strategy to deal with that. This report is designed to focus on current years' activities, resulting changes and other known facts in conjunction to the financial and strategic position of the Company.

OVERVIEW OF ECONOMY:

Global economies are currently grappling with a pronounced deceleration accompanied by surging inflation rates. The persistent undercurrents of geopolitical tensions, particularly the Russia-Ukraine conflict, alongside a steep escalation in fuel and food prices, are compounded by the lingering grip of the COVID-19 pandemic. These collective factors cast a substantial shadow over the world's economic landscapes. While central banks globally have implemented monetary policy tightening and interest rate hikes, these measures offer only transient respite to economies. The outlook for the global economy remains shrouded in uncertainty, with projected growth anticipated to slip from an estimated 3.5% in 2022 to 3.0% for both 2023 and 2024, as per the IMF's World Economic Outlook as of July 2023.

Despite the formidable challenges mentioned above, India's economy has maintained its status as one of the swiftest expanding economies on the global stage. Projections indicate that the Indian economy is poised to achieve growth ranging from 6.5% to 6.9% in the Financial Year 2023. This performance is notably robust in contrast to the trajectory of other major global economies. The government's consistent focus on structural reforms, bolstered by policy initiatives such as the Production Linked Incentive Scheme (PLI) and the Make in India Program, coupled with heightened investments in social welfare, healthcare, and infrastructure, promises to further stimulate the Indian economy. Consequently, this concerted effort positions India on track to ascend to the esteemed status of the world's 'Third largest' economy by the year 2027.

INDUSTRY DEVELOPMENTS & STRUCTURE

The Indian Textile Industry stands as a formidable global player, encompassing the entire value chain from cotton and yarn to fibers and apparel. India proudly ranks among the world's premier manufacturers and exporters, commanding a 4.6% share of global textile trade. This industry maintains an undisputed role in propelling the nation's economic advancement. Its significance is underscored by its status as the foremost contributor to employment generation, industrial output, and export revenues.

Operating as a lifeline for millions in rural and semi-urban locales, the Textile Industry extends direct and indirect employment opportunities, notably for a significant portion of women and rural inhabitants. This alignment with pivotal government initiatives such as 'Make in India', Skill India, Women Empowerment, and Rural Youth Employment underscores its societal impact.

In terms of tangible contribution, the industry adds 7% to the total industrial output in terms of value, bolstering India's GDP by 2%, and notably, constituting 12% of the country's total export earnings. (Source: Textile Industry of India Outlook and Challenge by Infomercials Valuation and Rating Pvt. Ltd.)

The ongoing global slowdown coupled with sharp increase in the prices of raw cotton are posing serious challenges to the Textile Industry. In case the situation persists for the longer period then earning a reasonable margin will become a challenging task for the Textile Industry. Because of the prevailing Textile scenario, Spinning Mills have already cut down their production in the past few months. Even some small mills have closed down their operations due to prevailing adverse conditions.

Your Management is of the opinion that things will start improving in the Second Half of the current year. The Industry with the support of Government and its favourable Policies and initiatives will be able to meet the challenges of survival and record reasonable growth in the coming periods.

OPPORTUNITIES AND THREATS

It's essential to highlight that India currently holds a modest 4.6% share in the global textile export market, a figure notably overshadowed by China's dominant position. Nonetheless, recent trade tensions between the United States and China, coupled with geopolitical uncertainties, have dealt a substantial blow to Chinese textile exports. This scenario has carved out a significant opening for the Indian textile industry to step into the void created by China, particularly within developed markets like the United States and the European Union.

Capitalizing on this situation requires the Indian Textile Industry to astutely leverage its foundational strengths: a robust production base, access to high-quality raw cotton, and a skilled workforce. By harnessing these assets, the industry has the potential to evolve into a textile hub that appeals to international buyers. The opportunity at hand is colossal and demands proactive action from the textile sector.

Furthermore, in this reshaped global landscape, several nations have begun adopting a 'China plus One' strategy when sourcing textile products. India has the unique chance to position itself as a trustworthy alternative. The country boasts inherent advantages to serve as an alternative manufacturing hub for global players, primarily owing to its abundant reserves of cotton and a skilled workforce. The trajectory is promising, with an increasing number of overseas buyers considering India as the next viable supplier for textile products. This momentum is anticipated to translate into a considerable shift of orders toward the Indian Textile Industry.

It's important to note that the spinning industry's relative success hinges on the accessibility of raw cotton at reasonable costs. Raw cotton constitutes the primary raw material, accounting for approximately 60% of the total manufacturing expenses for cotton yarn. This reliance is intertwined with natural factors, particularly the vicissitudes of the monsoon—whether it be favorable or adverse. Consequently, securing raw cotton at fair prices assumes critical significance for the spinning industry. The industry's performance is highly sensitive to any noteworthy fluctuations in raw cotton prices or disruptions in the monsoon patterns. Notably, this year's sharp escalation in raw cotton prices has imparted significant strain on the textile sector's performance.

Beyond this, exports continue to confront formidable competition from smaller nations like Bangladesh, Sri Lanka, and Taiwan. These countries have secured preferential treatment from the European Union and the United States. The amalgamation of these factors has, and is likely to persistently, exert a substantial impact on the industry's financial performance in the foreseeable future.

Furthermore, the textile industry is not immune to the ordinary business risks and challenges that any sector encounters. The global trade slowdown, precipitated by geopolitical tensions, elevated raw cotton prices, and the protracted specter of the Covid-19 pandemic in multiple nations, has curtailed the export of textile products. Should this situation endure, there is a potential for it to pose a looming threat to the industry's performance in the times ahead.

RISK AND CONCERNS

No industry remains immune to the ordinary fluctuations and concerns inherent in the business realm. The Indian Textile Industry, in particular, contends with robust competition from smaller nations such as Bangladesh, Taiwan, Sri Lanka, and other emerging economies. The industry's competitive stance is intrinsically tied to several pivotal factors including raw cotton prices, exchange rates, and the prevailing interest rate environment.

At the heart of this industry lies cotton, a primary raw material for yarn manufacturing, sourced from the domain of agriculture. The supply and quality of cotton are inexorably subject to the caprices of nature, namely the monsoon season. Should raw cotton prices experience a noticeable surge, it could potentially usher in challenges for the Textile Industry. This scenario could reverberate through the industry, leading to weakened demand and narrower profit margins. Hence, the accessibility of raw cotton at reasonable prices emerges as a pivotal factor for the spinning industry's success. Given the industry's sensitivity to changes in raw cotton prices, any significant shifts in this regard could indeed influence the industry's performance.

The Textile Industry's financial performance is notably impacted by the prevailing high interest rates. This impact is particularly pronounced on the Spinning industry, given its substantial capital requirements, encompassing both long-term investments and short-term working capital necessities. To bolster the industry's financial viability, it's imperative for the government to facilitate support through access to cost-effective financing. While some remedial measures have been initiated, a more comprehensive approach remains essential for the Textile Industry to effectively navigate forthcoming challenges.

Furthermore, the ongoing geopolitical tensions, notably the Russia-Ukraine conflict, have engendered disruptions in supply chains, thereby reverberating through global trade. This is compounded by the existing weak economic climate and elevated energy costs, collectively contributing to a global economic deceleration. This uncertain trajectory underscores the sense of unpredictability that looms over the horizon.

Adding to the landscape of concerns, the industry contends with elevated transaction costs, high labor expenses, and a persistent uptrend in raw material prices. These factors collectively pose risks to the advancement of the Indian Textile Industry. To counteract these challenges, it's incumbent upon the government to extend support to the existing textile units. This support would empower these units to cultivate global competitiveness, subsequently contributing to the nation's growth trajectory.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has implemented proper system for safeguarding the operations/ business of the Company, through which the assets are verified and frauds, errors are reduced and accounts, information connected to it are maintained such, so as to timely completion of the statements. The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information.

The Audit Committee of Board of Directors reviews the efficiency and effectiveness of internal control systems and suggests the solution to improve and strengthen. The Internal control system were tested during the year and no material weakness in design or operation were observed. The requirement of having internal auditor compulsory by statute in case of listed and other classes of companies as prescribed shall further strengthen the internal control measures of Company.

FUTURE OUTLOOK

The prevailing geopolitical landscape has undeniably cast a significant shadow over the textile industry. The combination of soaring cotton prices alongside a slowdown in global demand has dealt a substantial blow to the textile sector's prospects. Amid this climate of uncertainty, your management remains resolutely optimistic. There's a prevailing hope that as global demand regains momentum and raw cotton prices begin to ease in the upcoming periods, a sense of relief will envelop the textile industry.

While the future remains uncertain, your management maintains a positive outlook. The anticipation is grounded in the expectation that an improvement in global demand and the moderation of raw cotton prices will collectively alleviate the challenges currently faced by the textile industry.

Amid this challenging landscape, your confidence is bolstered by the prospect of governmental support. The Spinning industry's vitality is deeply intertwined with favorable textile policies, incentives, and other benefits that can propel its future growth. Recognizing their paramount importance, the hope is that the government will extend this vital support to ensure the industry's resilience and thriving trajectory.

SEGMENT WISE OR PRODUCT WISE FINANCIAL OPERATION AND PERFORMANCE

The Company operates within a singular segment, specifically in the realm of textiles. It is important to highlight that the ongoing conflict between Russia and Ukraine, alongside a broader global demand recession, has exerted a discernible impact on the company's performance during the past year. These external pressures, in conjunction with high cotton prices and a significant downturn in yarn prices, have compounded challenges for the spinning industry.

***Annexure “A” to the Independent Auditor’s Report
Responsibilities for Audit of Financial Statement***

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Annexure “C” to the Auditors’ Report**Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (‘the Act’)**

We have audited the internal financial controls over financial reporting of **M/S. UNITED POLYFAB GUJARAT LTD.** (‘the Company’), as of 31 March, 2023, in conjunction with our audit of the standalone financial statements of the Company for the year ended that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibility include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the ‘Guidance Note’) and the Standards of Accounting, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
